

ABELDent Practice Management Software

Don't Compromise Between Full Functionality and Ease of Use!

Why ABELDent?

Decades of ongoing collaboration with dental practices across Canada have created the advanced ABELDent software that is available today. You can be sure it provides all the functionality that improves your practice efficiency and maximizes your return on investment.

How Does it Work Better?

- The Appointment Scheduler serves at the administrative hub to perform all daily tasks – efficient workflows provide ease of use and saves you time searching.
- The Treatment Manager prevents unscheduled treatment from getting lost and is integrated with the Scheduler to save even more time and ensure your appointment book remains full.
- Want to go paperless? No problem! Full Charting and Clinical Notes are included at no extra cost.

ABELDent
Grow Your Practice

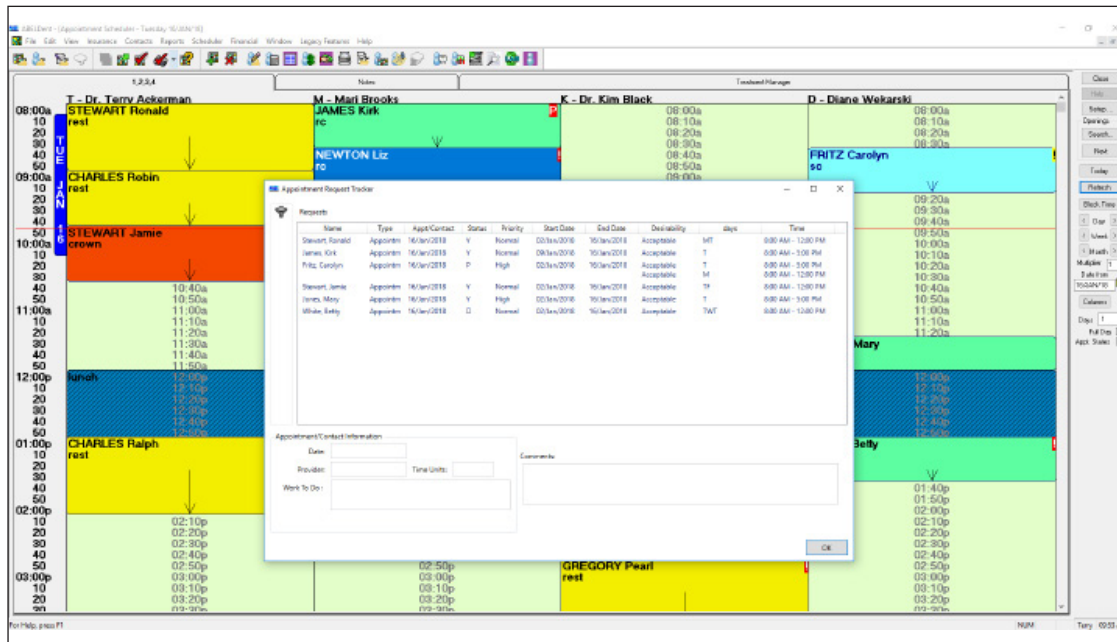

Efficient Workflows for Your Entire Team = A Better Patient Experience

ABELDent is your Best Choice for Achieving these Practice Objectives:

- Metric Reporting for practice monitoring and performance measurement
- Maximize hygiene and treatment plan bookings
- Growth and sustainment a loyal patient base
- Optimized resource utilization
- Easy transition to a fully paperless office
- Enhanced system security

Appointment Scheduler

All it takes is a click on an appointment screen icon to access patient information, financial transactions, outstanding treatment plans for booking, or the clinical chart. No need to navigate between multiple screens – once finished, it's easy to return to the Scheduler to process or schedule another patient.

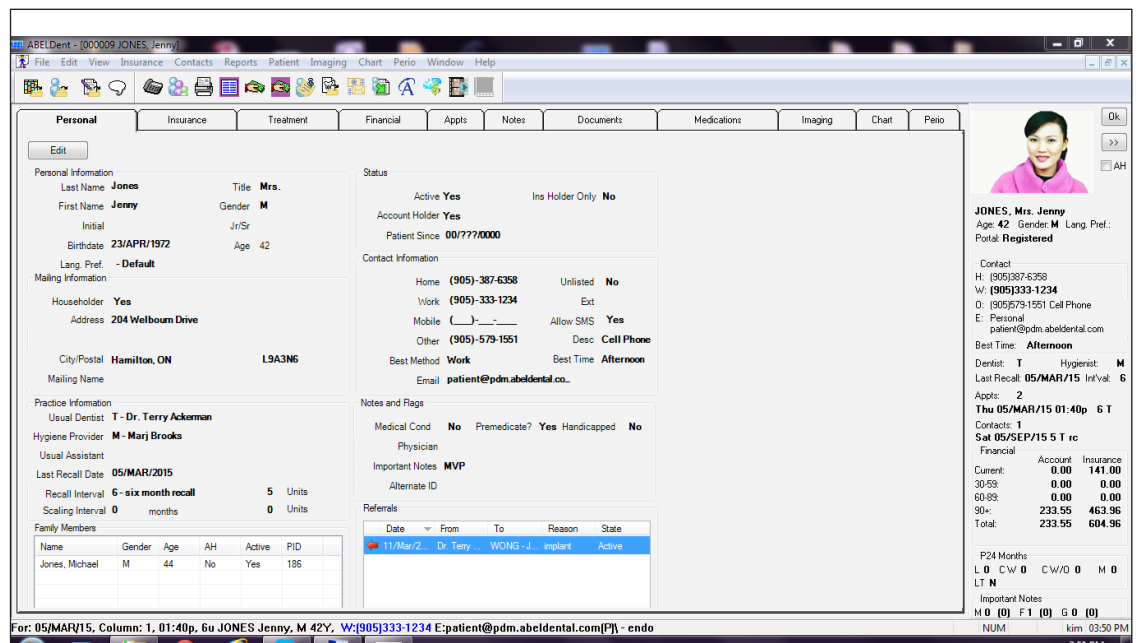

*The Appointment Scheduler:
Your Administrative Hub*

Patient File

Find everything in one place! With the Patient File it's easy to access any information or perform a function by clicking on the corresponding file tab. Again, no need to search for menus or navigate through various windows.

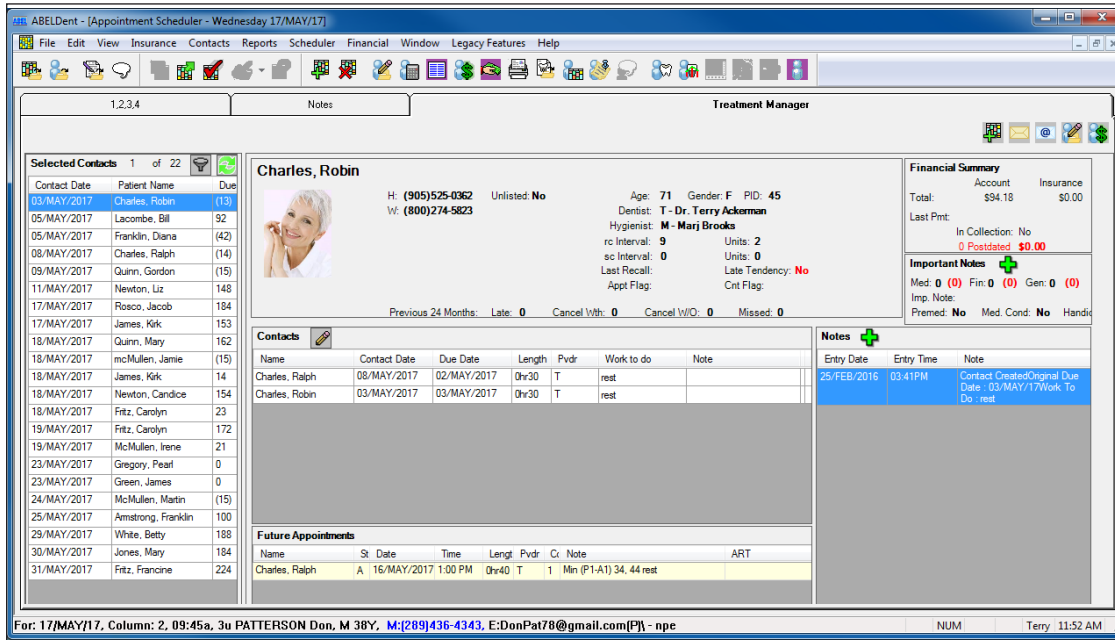

If desired, a return to the appointment scheduler is just a click away. This logical workflow saves time navigating so you can be more productive!

ABELDent is Canada's Leading Dental Practice Management Solution

Treatment Manager

Quickly identify unbooked treatment/recalls by provider, procedure and several other criteria. Treatment Manager empowers you to contact patients at the appropriate time using the most effective method, preventing recommended treatment from being lost or forgotten. Easy access to information regarding due date, scheduling preferences, insurance coverage, past follow-up attempts and past cancelled/missed and changed appointments ensures that you keep your providers productive.

Your Productivity Tool

Clinical Chart

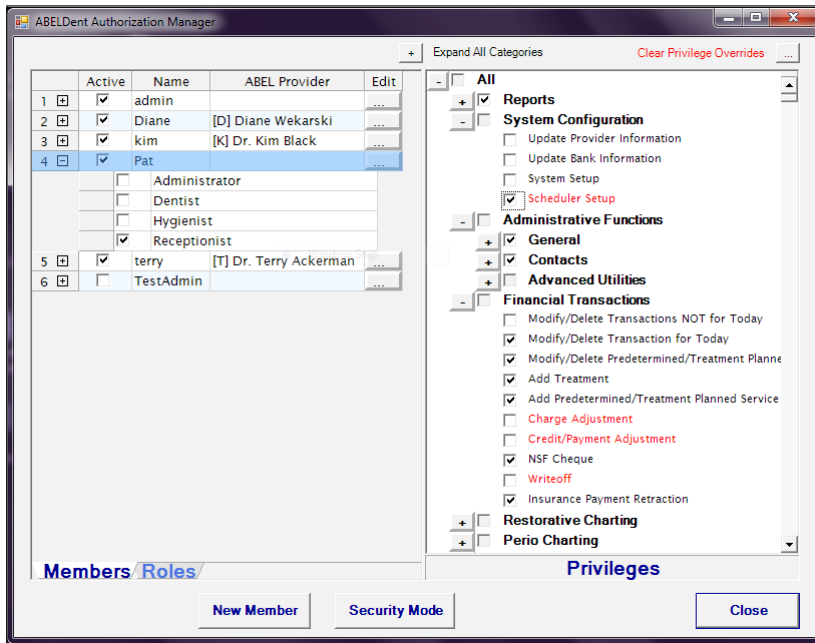

ABELDent's clinical chart eliminates the need for paper charts resulting in significant cost savings. Administrative synergies, error reduction, and time savings are achieved since billable services and planned treatment can be entered electronically from the operator. The same Patient File Folder function tabs are available for instant access and the appointment book is once again a click away.

Reporting

It's said that you can only improve what you measure! Monitor practice growth, demographic trends and provider capacity and productivity. Check recall retention, compare production between two time periods, ensure that you meet collections targets and much more. Metrics to support dental practice management professionals in making business decisions for their practice are presented in graphical and tabular form.
